

Global Diagnostics Alliance (GDA) Introduction Map

Aug. 1, 2017

GDA : The Global Diagnostics Alliance is an international group of the leading industry associations representing manufacturers of *in vitro* diagnostics (IVDs) and related analytical instruments and software.

Member Associations : USA, Europe, Brazil, Canada, Australia, Japan

Established in May 2015

Mission: To provide a forum for our associations to discuss and collaborate on key issues facing the diagnostics industry, especially the promotion of the role and value of diagnostics as a critical gateway to health care. The Global Diagnostics Alliance also serves as an industry contact point for global stakeholders.
